

WHAT'S THE RATIONALE?

The use of images combined with instructional strategies and/or technology...

- Sparks interest and enthusiasm
- Engages the learner
- Provokes thought
- Provides clarity
- Encourages interaction
- Stimulates discussion
- Makes connections to learning
- Addresses the four lenses of learning (meaning-centered, language-based, human, social)
- Enhances critical thinking skills
- Inspires creativity
- Strengthens literacy, including information and visual literacies
- Promotes a variety of 21st Century skills

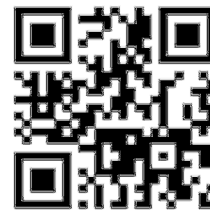

And the best part: Lessons, activities and projects using images can be designed and utilized in all content areas across the K-12 curriculum! ☺

Tech Tip of the Week

Join my mailing list to receive weekly tips regarding how to integrate various Web 2.0 tools into your classroom and/or visit <http://jf20.wikispaces.com/Tech+Tip+of+the+Week>.
